4. Local tool next steps
5. Study next steps

SUSTAINABLE TRANSPORTATION  
& LAND USE INTEGRATION STUDY

# Project Status – completed...

- Best Practices Research
- Stakeholder Group Meetings 1-4 & Input
- ULI Public Panel #1 and #2
- Regional Market Analysis
- HCT Corridor Analysis

SUSTAINABLE TRANSPORTATION  
& LAND USE INTEGRATION STUDY

# Draft Local Tool

## Purpose:

- Provide local practitioners information on how to assess a community and how to “synch up” its transportation and land use planning based on the Sustainable Transportation & Land Use Integration Study.

## Design:

- Practitioners can explore community place type characteristics and pathways to move toward more sustainable transportation outcomes.

# Local tools next steps

- Stakeholder input
  - Visit: [www.bqaz.org](http://www.bqaz.org) for the tool
- Comments
- Revisions
- Final product

SUSTAINABLE TRANSPORTATION  
& LAND USE INTEGRATION STUDY

# Study next steps

- Local Planning Tool\*
- Scenario Modeling and Reporting
- Stakeholder:
  - Meeting 6 – January 2013 (scenarios)
  - Meeting 7 – February 2013 (mobility recommendations)
- Completion
