Sustainable Transportation and Land Use Integration Study (ST LUIS)

SUSTAINABLE TRANSPORTATION & LAND USE INTEGRATION STUDY

	Task	2010		2011												2012												2013	
		11	12	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3	4	5	6	7	8	9	10	11	12	1	2
1	**Refine Scope**																												
2	**Planning Process Coordination and Monitoring**																												
2A	Project Management Plan																												
2B	Consultant Trips																												
2C	Coordination, Monitoring and Issues Identification							*WP1*																					
2D	Stakeholders Group (exact dates to be determined)				*		*			*			*				*								*			*	*
2E	Committee Meetings (exact dates to be determined)				*									*	*													*	*
2F	Public Panels (exact dates to be determined)						*										*												
3	**Study Methodology and Data Collection**																												
3A	Best Practices Research							*WP2*																					
3B	Define Sustainable Transportation							*WP2*																					
3C	Regional Spatial and Economic Analysis								*M*																				
3D	Evaluation Methodology													*M*															
3E	Data Collection																												
3f	Developer Consultation																*			*									
4	**Identify Sustainable Transportation Issues and Strategies**																												
4A	Sustainable Transportation Issues and Potential Strategies																												
4B	Define Transit's Role in a Sustainable Transportation System																												
4C	Consultation with the Regional Transit Team										*														*				*
5	**Scenario Modeling**																												
5A	Corridor Confirmation																		*WP3A*										
5B	Base Case Scenario																		*WP3A*										
5C	Growth Reallocation Methodology																												
5D	Alternative Scenario Modeling																												
	Scenario 1 Modeling																												
	Scenario 2 Modeling																												
	Scenario 3 Development																												
	Scenario 3 Modeling																												
5E	Scenarios Financial Feasibility Analysis (included in Sc. 3 Development)																												
5F	Policies and Programs Screening (included in Sc. 3 Development)																												
5G	Evaluation and Reporting																												
6	**Develop Study Recommendations**																												
6A	Land Use and Transit Integration Matrices and Place Types (included in 6C)																												
6B	Mobility Priority Recommendations																												
6C	Local and Regional Planning Tools																												
	Draft TOC and Toolkit Template to MAG																												
	MAG Comments to Arup																												
	Final Manual to MAG																												
6D	Review Recommendations and Integration Strategy Components (included in 6B)																												
7	**Sustainble Transportation and Land Use Strategy**																												*WP4*
8	**Study Record**																												*WP4*
